PROJECTS UNDERTAKEN:

>IOT Based Vehicle Parking Manager:

It is designed to know the Availability of parking slots in the Remote Controlled area
And share the information with users through a mobile app or display.It reduces traffic congestion,
saves time,and enables efficient parking management and billing.

> IOT Based Intelligent Fire Detection and Automatic Safety Control System

An IoT-based intelligent fire detection and automatic safety control system uses interconnected sensors (smoke, flame, heat, gas) to detect fire, immediately alerting users via smartphones and triggering automatic responses like sprinklers, buzzer alarms, and ventilation control, significantly reducing response times compared to traditional systems.
